Genie Sparks

Biography

Nearly a century ago, a new kind of magic appeared in Fairyland. Down on Electric Avenue, Genie Sparks, a bright young fairy, noticed a few problems.

"Humm", he thought. "While we fairies are happy to fly long distances to chat with each other, what if it rains?"

"And Toothville Library provides us with answers every day. But what if someone has a question when it's closed?"

"...What if I need to multiply 34786 x 98103?!"

With his clever thinking, he found a different way to harness the electricity that usually powers the fairies' magic. Soon, computers, videogames, cellphones and more came to Fairyland!

But Genie was ambitious, and didn't stop there. His dream was to become a tooth fairy, and encourage other curious young inventors and problem solvers.

As the Tech Tooth Fairy, his friends thought it would be funny to nickname him 'Bytes'. A byte is a tiny piece of information on a computer, but it sounds like what we do with our teeth! This shows us how we can do about the same thing in different ways - the secret to innovation.

Pixel Hut

All About Pixel Hut

Genie Sparks lives in the super-techy Pixel Hut. Full of his inventions (and some projects that didn't work out!), it's similar, but at the same time, a little different to the other tooth fairies' homes.

Built from a huge toadstool on Electric Avenue, over the years Bytes furnished both the inside and the outside of the hut with screens and speakers. Glowing LED strings blend with the natural surroundings during the day, and light up the house with rainbow colors at night.

Genie and his Pixel Hut always receive plenty of visitors. Sometimes it's older fairies who would like help understanding their new tablet, and sometimes it's the younger fairies, come to beat Bytes at video games. And some simply visit because they're curious about what new marvel the Tech Tooth Fairy will come up with next.

Bytes is always happy to see his friends. While helping them, he likes to ask what they think of his latest invention. He's trying to solve. He knows we all see the world differently, thinking in a different way than usual can be something exciting, and brand new.

Official Tooth Fairy Letter

Dear

Congratulations on losing your tooth! I'm Genie Sparks, your Tooth Fairy, but you can call me Bytes.

I heard you like tech - so do I! Maybe, like me, you'd be interested in creating it someday too?

Here's what happened when I visited last night:

```
IF sleeping_soundly:
THEN
Collect_lost_tooth{}
Cast_magic_spell{}
```

If you can understand this message, I think you'll make a great coder one day. If you don't understand it yet, don't worry, the magic spell I cast will help you on your way!

My 'Mind Innovate' magic is perfect for young wizards like yourself. Next time you've got some weird problem to solve or you're trying to invent something new, it'll be there to give you a boost.

Just remember you've got the power, and use your imagination to think about what you're trying to do in a different way. Forget how you've always done it before - ask yourself, "what if...?". It's like making your own set of new rules!

Have fun. I can't wait to see what you do with your incredible mind!
